CONDUCT OF ELECTION
EXPLANATION REPORT

NOTE:

None of these instances affected the election results.

Item 7

During the closing of early voting DS200 Tabulators ("BCS"), BCS 67 showed error "Unable to encrypt file". The Canvassing Board determined all ballots from early voting site Lynn Haven will be ran through nine (9) publicly tested spare BCS to have an accurate ballot count of the early voting site. Canvassing Board was present during the whole duration and public count matched and validated through previous reports.

During the closing of Election Day, precincts 1, 11, and 40 were unable to transmit election results. At that point, the Canvassing Board advised those precincts to bring memory device ("Election Stick") for manual upload. Thien and Rey, election staff, uploaded election results with no issues.

During the reconciliation of transmitted results, the Canvassing Board determined precinct 5 preliminary results did not have the correct transmitted results from the results tape. Thien and Rey, election staff, manually entered the election results from the result tape. The 1st unofficial results were then produced to the Canvassing Board for certification.

Item 10

A provisional ballot was tabulated through the BCS at precinct 32 Glenwood Community Center. Once the Supervisor of Elections office was notified, the precinct clerk and assistant clerk was informed to be aware when issuing the provisional process. No issues arose thereafter.
