St Johns County Conduct of Election - Addendum 2016 General Election - November 8, 2016

Item #7

PCT 507

DS200 had a ballot jam that could not be resolved by the equipment inspector and a tech was dispatched to clear the jam. During the period the scanner was down, voters were instructed to place their ballot in the emergency bin and were processed through the DS200 after polls closed with no issues.

PCT 401 & 505

In both locations, a DS200 locked up right after the clerk pressed the polls closed button without printing a closing tape. Tech's were dispatched to both locations and under instructions from support staff at the office, verified the units were not writing data to the USB stick. Once that determination was made, both units were forcibly shut down and restarted. The polls on both units were opened, counts verified, then both DS200's were closed normally and modemed their results with no issues.

Item #9

During Early Voting, at the Watson Realty site, we had a BOD printer fail and could not be repaired onsite. Printing was redirected to the second printer until the bad printer was replaced about 2 hours later.

Item #12

During early voting at several of our early voting sites, we had repeated calls from voters complaining of aggressive solicitors outside the no solicitation zone which resulted, in some cases, the sheriff's office being called.

In a separate incident at the SE Branch Library voting site, an altercation broke out between Merrill Roland (a candidate) and Eric West (REC) once again the sheriff's office was dispatched and the altercation resulted in Roland being transported to the hospital.
