CONDUCT OF ELECTION REPORT
SECTION 102.141(9), FLORIDA STATUTES

The County Canvassing Board must submit a completed Conduct of Election Report to the Division of Elections at the same time that the board submits its certified official election results for any presidential preference primary, general, primary, or special election, whichever is applicable.

On behalf of the county canvassing board, the Supervisor must submit the report via the SOE File Transfer Utility on the SOE portal. For assistance if needed, please contact the Bureau of Voting Systems Certification, Eleonor Lipman; Eleonor.Lipman@dos.myflorida.com; 850-245-6258 or Zane Wood; Zane.Wood@dos.myflorida.com; 850-245-6123.

Precinct Count Marksense Scanners				
	Number of Polling Locations	Initial Total Deployed	Removed	Replaced or Added
Early Voting	5	10	1	1
Election Day	14	28	0	0

Voter Interface Device (e.g., Automark, ExpressVote, or ICE)				
	Number of Polling Locations	Initial Total Deployed	Removed	Replaced or Added
Early Voting	5	5	0	0
Election Day	14	14	0	0

Reason for removal, replacement or addition of voting devices:

One Early Voting (EV) Marksense Scanner encountered a JAVA error during the Polls opening process on the first day of EV. This issue occurred prior to EV beginning,

because there are two marksense devices at each polling location, the device was replaced without voters being affected. Troubleshooting at the warehouse resulted in the

issue not being able to be repeated. It was noticed that the marksense devices at this EV location were receiving electrical power from an older electrical

outlet and that there was a newer outlet available. The marksense devices were moved to the newer outlet and no additional issues were observed.

4. Did **equipment or software** issues occur at the precinct level, at a counting location, or within computer and telecommunications networks supporting county location? *(Section 102.141, F.S.)*

Steps Taken to Resolve:

Due to major software and security updates, there were several upgrades performed on the EViDs for this election. We noticed during

this process that there might be an additional windows update session that was not specifically noted in the upgrade documentation.

We instituted an additional boot sequence to make sure that all updates had been completed; however, on the first morning of

Early Voting, one of the EViDs performed a Windows Update session on boot up. This behavior did not occur again.

11. Did you experience **any additional issues** associated with the conduct of election?
